Book Details:

Review: If you were to have just one book on the application of systems thinking in the business world, then this is the book. The book starts off by assuming that the reader knows nothing about the subject. However, a couple of chapters later you will see yourself studying much more advanced material and finding it relatively easy. Systems modeling is an extremely...

Description: The field of system dynamics was created in 1956 under the leadership of MIT Professor Jay W. Forrester to evaluate how alternative policies affect growth, stability, fluctuation, and changing behavior in corporations, cities, and countries. Forrester founded the System Dynamics Program in the Alfred P. Sloan School of Management at MIT. John Sterman...
